

SENIORsmile FEE UPDATE

Dear Valued Patients, Families and Partnered Communities,

At **SENIOR smile**, our mission has always been to provide compassionate, high-quality dental care directly to the seniors we serve – in the comfort of their own space/homes and communities. We are deeply grateful for the trust you continue to place in us.

Over the past two years, like many healthcare providers, we have experienced significant increases in the cost of supplies, equipment, repairs, staffing, fuel and overall operating expenses. In order to continue delivering the level of personalized, mobile dental care that our patients deserve, we will be implemented a modest fee adjustment beginning January 1st, 2026. Our last fee update was in 2024.

This decision was made thoughtfully and carefully. It allows us to:

- Maintain the highest standards of clinical care and infection control
- Continue investing in quality materials and modern portable equipment
- Support and retain our dedicated clinical team
- Sustain reliable mobile service to the communities and families who depend on us

We remain committed to transparency, fairness and exceptional service. Update fee schedules will be provided if needed prior to appointments in treatment plan form, and our team is always available to answer any questions.

Thank you for your continued support of **SENIOR smile** and for allowing us to keep *“Creating MILES OF SMILE”* every day.

With gratitude,

Dr. Namita and The **SENIOR smile** staff
